Pratheeksha Nair

International Institute of Information Technology-Bangalore, (IIIT-B)
Electronic City, Bangalore - 560100, INDIA
Email-id : **Pratheeksha.Nair@iiitb.org, 96.pratheek@gmail.com**
Mobile No.: **+919535953152**

ABOUT ME

Masters student of Computer Science and Engineering at IIIT-B. Interested in pursuing deep research in the emerging fields of **AI** and **ML**.

ACADEMIC ACHIEVEMENTS

Degree	University	Specialization	Year	Total
Integrated Master's	IIIT Bangalore	Computer Science Engineering	2014-2019	3.6/4.0 (till date)
High School	Indian School Certificate	Mathematics and Science	2014	95.6/100.0

PAPER PUBLICATIONS

- **Pratheeksha Nair**, Anup Deshmukh, Shrisha Rao, A Scalable Clustering Algorithm for Serendipity in Recommender Systems, *In the Workshop Proceedings of the 18th IEEE International Conference on Data Mining (ICDM 2018)*
- Rameshwar Pratap, **Pratheeksha Nair**, Anup Deshmukh, Tarun Dutt, Fast and Provable Concept Decompositions in Large Text Corpus, *In the Proceedings of Machine Learning Research (ACML 2018)*

TECHNICAL SKILLS

Languages (C++, Python), **Database** (MySQL), **Tools** (LaTeX, Matlab), **Libraries** (Tensorflow, Keras, Pytorch)

RESEARCH EXPERIENCE

- **Exploring Validity in Machine Generated Drugs - Master's thesis at IIIT Bangalore**
  (Guide: Prof. Dinesh Babu, Aug'18 - present)
  This work looks at generation of valid SMILES representation of molecules as a problem of semantic and syntatic sequence generation. These molecules are manifested as drugs with certain desired properties.
- **Method Summarization from Code - Internship at IBM Research AI Lab, India**
  (Guide: Rahul A R, May'18 - Aug'18)
  This work involves using sequence to sequence deep models to solve problems prevalent in Software Engineering. One particular use-case is the automatic generation of comments from code.
- **Detection of star clusters using Pattern Analysis - Indian Institute of Space Science and Technology (IIST)**
  (Guide: Prof. Sarita Vig, May'17 - July'17)
  Worked on a direct application of pattern analysis techniques for a highly relevant problem statement in astrophysics. Used the K-Nearest Neighbor algorithm for density estimation and detection of star clusters.
- **Scaling up Simhash**
  (Guide: Dr R Pratap, Jan'18 - May'18) - Currently under review at a top tier AI conference
  Proposed a dimensionality reduction sketching algorithm - simsketch - which maintains an estimate of the cosine similarity between original real valued vectors.

ACADEMIC PROJECTS

- **Word Embeddings for Medical Domain** *(Guide: Prof. G S Raghavan, Aug'18 - Dec'18)*
  Worked on generating word embeddings specifically for medical terms making use of hierarchical ontologies in medicine.
- **Refreshable Braille Reader on Arduino Teensie** *(Guide: Prof. Sujit Kumar, Aug'18 - Dec'18)*
  Worked on a text-to-Braille converter that runs on microcontrollers like Arduino.

ACHIEVEMENTS

- **GHCI '18 Student Scholar**
  Scholarship to attend India's largest gathering of women technologists produced by AnitaB.org and ACM India.
- **World Rank 7** (HackerRank Women's Cup 2015)
  7^{th} rank out of 1000+ participants in the world. 3^{rd} place in the country. Featured in a YourStory article.
- **World Rank 23** (Adobe CODHERS Codesprint 2016)
  23^{rd} rank out of 1500+ participants all over the world. 21^{st} place in the country.
- **World Rank 49** (Women's CodeSprint 2016)
  49^{th} rank out of 2500+ participants all over the world. 19^{th} place in the country.

OTHER ACTIVITIES

- Teaching Assistant for Programming Languages course (2019)
- Teaching Assistant for ML 101 course (2018)
- Curator at TEDx IIITB (2018)
- Mentor at the Student Mentoring Program of IIITB (2017-2018)
- Active member of the Dance Club of IIITB (2016-2019)
